**16/257      Highways, Public Footpaths, Public Services and Parish Improvements**

The following response has been received from Derbyshire County Council regarding Church Brow:

'Following site meetings last year with council members and conservation officers Derbyshire County Council would be very reluctant to introduce further traffic measures in this sensitive area due to the amount of signing and lining that would be required to make any system enforceable. At present drivers are cautious of vehicles turning left towards Market Place if this became one way speeds would increase. Also as on most narrow roads, obstructive parking can occur from time to time, but, that this is an exception rather than the norm and this is the case on Church Brow and Terrace Road. Ordinarily, parking restrictions are normally considered to address issues that exist on an almost daily basis and occasional instances of obstruction are dealt with as a Police matter.'

The Clerk was asked to report the following highway matters:

- Uneven flag stones by the Co-op on Chapel Market Place and to request bollards to stop vehicles mounting the pavement.
